

The State of Utah

Department of
Natural Resources

Division of
Oil, Gas & Mining

ROBERT L. MORGAN
Executive Director

LOWELL P. BRAXTON
Division Director

OLENE S. WALKER
Governor

GAYLE F. McKEACHNIE
Lieutenant Governor

Representatives Present During the Inspection:

Company Dennis Oakley Environmental Engineer

Inspection Report

Permit Number:	C0150017
Inspection Type:	PARTIAL
Inspection Date:	Thursday, August 26, 2004
Start Date/Time:	8/26/2004 8:33:00 AM
End Date/Time:	8/26/2004 11:50:00 AM
Last Inspection:	Thursday, July 22, 2004

Inspector: Jim Smith, Environmental Scientist III

Weather: Clear, warm, strong wind gusts

InspectionID Report Number: 380

Accepted by: whedberg
9/22/2004

OK

Permitee: **PACIFICORP**

Operator: **ENERGY WEST MINING CO**

Site: **DES BEE DOVE MINE**

Address: **PO BOX 310, HUNTINGTON UT 84528**

County: **EMERY**

Permit Type: **PERMANENT COAL PROGRAM**

Permit Status: **RECLAIMED**

Current Acreages

154.86	Total Permitted
23.88	Total Disturbed
	Phase I
	Phase II
	Phase III

Mineral Ownership

- ☒ Federal
☒ State
☐ County
☒ Fee
☐ Other

Types of Operations

- ☒ Underground
☐ Surface
☐ Loadout
☐ Processing
☐ Reprocessing

Report summary and status for pending enforcement actions, permit conditions, Division Orders, and amendments:

Vegetation is becoming established, but the bathhouse slope is still fairly barren and rills are beginning to form. There are many weeds, notably halogeton. Water bars were recently built across sections of the cattle trail just below the reclaimed road from the Deseret to the Beehive - Little Dove levels to control runoff and reduce erosion. In some areas, the pocks are entirely filled with sediment and rills are beginning to form.

Inspector's Signature

Jim Smith, Environmental Scientist III

Inspector ID Number: 43

Date

Friday, August 27, 2004

Note: This inspection report does not constitute an affidavit of compliance with the regulatory program of the Division of Oil, Gas and Mining.

REVIEW OF PERMIT, PERFORMANCE STANDARDS PERMIT CONDITION REQUIREMENTS

1. Substantiate the elements on this inspection by checking the appropriate performance standard.
 - a. For COMPLETE inspections provide narrative justification for any elements not fully inspected unless element is not appropriate to the site, in which case check Not Applicable.
 - b. For PARTIAL inspections check only the elements evaluated.
2. Document any noncompliance situation by reference the NOV issued at the appropriate performance standard listed below.
3. Reference any narratives written in conjunction with this inspection at the appropriate performance standard listed below.
4. Provide a brief status report for all pending enforcement actions, permit conditions, Division Orders, and amendments.

	Evaluated	Not Applicable	Comment	Enforcement

2. Signs and Markers

Recent storms knocked the laminated sign at the sedimentation pond off the old sign, which is now just a support for the new one. The new sign was put back in place and is still legible, but a more robust sign is needed.

4.a Hydrologic Balance: Diversions

The ditch at the topsoil pile is the only remaining diversion.

4.b Hydrologic Balance: Sediment Ponds and Impoundments

The pond contained water from the recent rains. Sediment has been removed down to bedrock over a large part of the sedimentation pond, the part that could be reached with a track hoe without driving onto the wet, unstable sediment. The removed sediment has been temporarily stored on the banks of the pond. This work should have restored the pond capacity to within design specifications, but pond capacity will be determined during the operator's quarterly pond inspection in September.

4.c Hydrologic Balance: Other Sediment Control Measures

The only remaining ASCA is at the topsoil storage pile.

4.e Hydrologic Balance: Effluent Limitations

There were no discharges during the second quarter. Also, there were none in July, as shown on the DMR e-mailed to the Division by the operator.

16.a Roads: Construction, Maintenance, Surfacing

The road to the sedimentation pond is the only remaining road.
